My opinion on the Microsoft settlement proposal vs RedHat counter proposal

I am definitely concerned that the proposal as endorsed by Microsoft would be a mistake. I support getting more alternative computer education in the public school system as a way of broadening students opportunities, and therefore I am for Redhat's counterproposal, or any proposal which imposes a strict monetary demand on Microsoft without offering them any direct method of recouping their losses, such as furthering their monopoly on desktop computer systems in this country.

Sincerely,

Sean Harbour
